Art Unit: 1722

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE CLAIMS

The status identifier for claims 4 and 5 has been amended to use the proper terminology of "Cancelled" instead of "deleted" as was used in the amendment filed on December 15, 2003.

4. (Cancelled)

5. (Cancelled)

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest an apparatus for molding a sheet of thermoplastic material into an array of microstructures as defined in claims 1 and 7. The closest prior art disclosed by Salatino et al. (U.S. Pat. No. 5,915,168; previously of record). As noted by Applicant in

Art Unit: 1722

repose to the previous Office Action, Salatino does not teach the disclosed structure to comprise a pair of molds defining a cavity as the terms are defined in the instant application. Moreover, the structure of Salatino's disclosed apparatus is capable of being used as a mold as the provision of molding material being used in the spaces 241 or 248 of the mold would destroy the air bridge and contact pad features disclosed in these spaces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
